**Price Adjustments:** All prices must remain firm during the contract period. The only time a price adjustment may be considered is if the company supplies the County Purchasing Agent with an official manufacturer's notice or other evidence that the price change occurred. The notice from the manufacturer must be dated and the price increase must have occurred after the contract was awarded. The Purchasing Agent must be notified **in writing 15 days** prior to any proposed price adjustments.

If the proposed price adjustment is higher than the next lowest bidder, it will be at the discretion of the County on how to award the item.

The County shall reserve the right to immediately cancel the contract for that particular item, when a requested price adjustment is unacceptable.

**Packaging:** During the term contract, if a vendor changes manufacturers of their product(s) the County must be notified immediately. Any change in packaging, requires County approval to verify the new product will meet specifications.
